§ 3115. Uniform Plan.

The commission shall prepare an overall plan for the naming of public buildings and streets and numbering of buildings and properties on Saipan. The commission, in the preparation of such plan, shall:

(1) Take into consideration the requirements of the United States Post Office Department for the door-to-door delivery of mail; and

(2) Formulate such uniform system of street address numbers so that:

(A) Each residence and business address on Saipan will be assigned an identifying number distinct from other such numbers on the same street;

(B) Each residence and business building erected after the formulation of such plan can also be assigned a distinct number; and

(C) The numbering of east/west streets shall commence at the east end of such streets and the numbering of north/south streets shall commence at the north end of such streets.

(3) Formulate a uniform system of public building and street names that includes:

(A) Giving preference to names which reflect the local culture and heritage;

(B) Naming public buildings and streets only after those individuals no longer living who have made significant contributions to their communities.

(4) Following the established practices of street naming and address numbering systems in use within the continental United States.

Commission Comment: To correct typographical errors in this section, at the beginning of subsection (2), the Commission revised "address" to "addresses" and, in subsection (2)(C), inserted "street" after "north/south." See also the Commission comment to 10 CMC § 3114.
