

TITLE 4: ECONOMIC RESOURCES
DIVISION 8: UTILITIES

§ 8208. Precautions to Avoid Damage.

In addition to the notification requirements of 4 CMC § 8205, each person responsible for any excavation or demolition designated in 4 CMC § 8202 shall:

(a) Plan the excavation or demolition to avoid damage to or minimize interfering with underground or above ground utilities in and near the construction area.

(b) Maintain a clearance between an underground utility and the cutting edge of a point of any mechanized equipment, taking into account the known limit of controlling such cutting edge or point, as may be reasonably necessary to avoid damage to any utility.

(c) Provide such support for underground utilities in and near the construction area, including during backfill operations, as may be reasonable for the protection of such utilities.
